Message from crisis management team

"We apologize for any inconvenience caused by the chocolate fanatic invasion, zombie manifestations, rocket-launching fire tribes, dynamite-throwing treasure hunters, and general supernatural chaos. We're working diligently to restore our island to its former peaceful state. Thank you for your patience .

Don't forget to fill out your Tourism Review Form. We need to keep attracting new adventurers... most of them seem to disappear without a trace. Your feedback is literally vital to our survival as a destination! "
